SUMMARY

Computer Science student and Frontend Developer specializing in Frontend development as React.js. Skilled in HTML, CSS, JavaScript, Bootstrap, TypeScript, Data Structures, Algorithms, object-oriented programming, C, Java. Passionate about Software Design Specification (SDS), software development life cycle (SDLC) and Responsive design. Skilled in using tools Like Git, GitHub .

I enjoy solving programming challenges and creating responsive high-quality websites, by agile, lean workflow and passionate about ideation session. Looking to work with companies that value dedicated developers who bring creativity, leadership potential, and a collaborative approach to their teams.

EXPERIENCE

Digital Egypt Pioneers Initiative (DEPI) – Frontend Developer Trainee (React.js)   *(July 2025- present)*

- Selected for the national Digital Egypt Pioneers Initiative by MCIT, focused on frontend web development.
- Receiving hands-on training in React.js, HTML, CSS, and JavaScript to build responsive and scalable web application.
- Strengthened soft skills including teamwork, time management, and problem solving, while improving English communication through presentations and collaboration; also provided coaching to peers and started exploring freelancing opportunities in front-end development

EDUCATION

Bachelor's degree at faculty of computer science and Artificial intelligence.
Helwan University (2023 - 2027)
- Major: Information System.
- Cumulative GPA: 3.42

PROJECTS

Travel

- Website from scratch showcasing Egypt's key travel destinations using pure HTML and CSS.
